

OUR PROFILE

Ark is a professional compliance firm focusing on tax compliance and consulting services, accounting support, employment and labour related matters, company administration, mergers and acquisition support services, company liquidation, audit, and assurance services.

Taxation

General tax compliance support covering income tax, payroll taxes, WHT, VAT, Customs and import duties, stamp duty, service levies and social security. Consulting services include supporting potential and existing clients in understanding key tax obligations in Tanzania. This also includes tax health check reviews, tax audits and assessments, transfer pricing compliance, tax restructuring and general advice.

Accounting

We use online accounting software to record our clients' monthly management accounting information. This provides support to external auditors due to availability of reliable accounting information.

Audit and assurance

We provide audit and assurance services to our clients to support regulatory compliance in Tanzania Mainland and Zanzibar.

Labour and immigration

We support on employment contracts, HR policies, salary structures, and handling labour disputes in line with labour laws in Tanzania. Our services also include assisting on labour and immigration matters (ranging from work and residence permit applications, special pass, travel visas, filing of non-citizen returns, etc.).

Legal & Company Administration

Advising and guiding potential investors about investing in Tanzania Mainland and Zanzibar, registration of new businesses, tax authorities and other trade or professional bodies, business licensing authorities, etc. We further support our clients to prepare and file company annual returns, application, and renewal of business license/trade licenses.

Mergers & acquisition and investment support

Unless specifically exempted, taxes and duties apply on disposal of investments in Tanzania. We advise on foreign direct investments, foreign exchange rules (repatriation of proceeds from investments in Tanzania), optimal financing mix in Tanzania as well as tax structuring.

Company Liquidation services

We provide support in winding up business operations in Tanzania. This is a step-by-step process, and our team has practical experience on this area. We have a pool of advocates that provide admirable guidance and support to companies in Tanzania.

Industry experience

Our experience in taxation, audit and assurance, accounting, legal, company administration, labour and immigration including general compliance advisory services covers industries such as mining, oil and gas, services industry, health care, manufacturing, agriculture, real estate, engineering & construction, aviation, NGOs, educational institutions, transportation and logistics, coffee shops, etc.
